9USB / 9USB TALL

Classe 9USB has an eye-catching, futuristic design and is made from tough materials, such as stainless steel and aluminium, so it's packed with character.
Shock-absorbing side panels guarantee a sturdy machine that's practical to use.
Available with 2, 3 and 4 groups and also in a TALL version.

Classe 9USB features advanced electronics and an alphanumeric display for managing the machine's main settings.

Stunning lights on the steel side panels and the floating front panel accentuate the design, lending the machine a strikingly elegant yet bold and trendy look.

Innovative functional elements like the soft-touch button control and ergonomic lighting assist the barista in every phase of use and cleaning.

Classe 9USB has an ergonomic lighting system in the work area to make the barista's job easier plus chrome group covers and all the distinctive stylish accessories from the Rancilio range.

The hot-water temperature control system for tea and infusions has two different temperatures and programmable dosing.

Classe 9USB - 3 groups - rear view

Classe 9USB - 2 groups - side view

Classe **9USB** / **9USB TALL**

Technical Features

independent heat exchangers

electric heating

built-in volumetric pump

pump pressure gauge

boiler pressure gauge

electronic water level control

electronic boiler pressure control

multifunctional onboard computer with display and USB port

low-voltage brew heads (24 V)

low-voltage dispensing controls (24 V)

version "TALL" - H max cups/glasses: 5.7 in (14.5 cm)

LED lights illuminate the work area, functional LED lights on the group button panels, stylish lateral lighting

Standard features, accessories

STANDARD FEATURES: 1 filter holder for 2 cups per group, 1 filter holder for 1 cup, 2 steam wands, 1 mixed hot water dispenser with two buttons for programmable time-controlled dosing and/or temperature (4-TEA), coffee tamper, measuring scoop and cleaning discs, levelling feet

ACCESSORIES: DP automatic or manual water softener, MD dosing grinder

Materials

aluminium and stainless steel body

Technical Data

2 GROUPS

dimensions (W×D×H) 29.5×21.3×20.6 in (750×540×523 mm)		weight 145.5 lb (66 kg)	boiler 11 l (2.4 gal$_{UK}$)
boiler power 4,300 W	voltage 220-240 V / 380-415 V (3N)		frequency 50/60 Hz

3 GROUPS

dimensions (W×D×H) 39.0×21.3×20.6 in (990×540×523 mm)		weight 174.2 lb (79 kg)	boiler 16 l (3.5 gal$_{UK}$)
boiler power 6,000 W	voltage 220-240 V / 380-415 V (3N)		frequency 50/60 Hz

4 GROUPS

dimensions (W×D×H) 48.3×21.3×20.6 in (1230×540×523 mm)		weight 211.6 lb (96 kg)	boiler 22 l (4.8 gal$_{UK}$)
boiler power 6,000 W	voltage 220-240 V / 380-415 V (3N)		frequency 50/60 Hz

Standard

C-LEVER — Ergonomic steam control

4-TEA — Temperature programming

ABM.07 — Smart power management

V-FLEX — Voltage stabilizer

EASY FIX — Advanced diagnostics

PLUG & BREW — Rapid setting

EASY CLEAN — Automatic washing program

HYDRO HUB — Ergonomic hydraulic module

LED LIGHTS — Ergonomic lighting

SOFT TOUCH — Ergonomic control panel

ERGO-FILTER HOLDER — Ergonomic filter holder

GRID SYSTEM — Ergonomic work surface

CUP WARMER — Electric cup warmer

On demand

iSteam — Automatic steam wand

COOL TOUCH — Kit Cool Touch (2 steam wands)

CONNECT — Real time online management

PODS & CAPS — Pod and capsule adaptor
